SUMMARY

Motivated backend developer skilled in Django, Celery, and REST APIs. Proven experience building production-ready, scalable systems with AI integrations (OpenAI, Groq). Seeking backend or full-stack internship roles where I can apply real-world project experience to deliver impactful solutions.

SKILLS

Languages: Python, C, C++, Java, JavaScript, HTML, CSS
Frameworks: Django, Django REST Framework, Django Channels, HTMX, Bootstrap
Libraries/APIs: OpenAI API, Groq, Twilio, xhtml2pdf
Tools: Git, GitHub, Docker, Celery, Redis, Elasticsearch
Databases: PostgreSQL, SQLite

PROJECTS

Notiflow – AI Smart Reminder System *May 2025 – Jul 2025*
github.com/dhirajdurgade7758/notiflow
Built an AI-powered reminder system that understands natural language and sends real-time notifications.

- Engineered an LLM-based parser using Groq LLaMA3 to convert human input into backend tasks.
- Designed asynchronous task pipelines with Celery and Redis for scheduling, retries, and failure handling.
- Implemented real-time updates using Django Channels and HTMX with WebSocket communication.

Job Portal & AI Resume Generator *Mar 2025 – May 2025*
github.com/dhirajdurgade7758/jobportal
Job platform with AI-generated resumes and Elasticsearch-based job search.

- Built advanced job search and filtering with Elasticsearch 8.x.
- Integrated GPT-4o to generate resume summaries from user input.
- Enabled one-click resume export to PDF using xhtml2pdf.

RealTime ChatApp *Feb 2025 – Mar 2025*
github.com/dhirajdurgade7758/chatAPP
Real-time messaging app with private/group chats and media sharing.

- Developed WebSocket-based chat system using Django Channels.
- Created dynamic, reactive UI with HTMX and Tailwind CSS.
- Added user registration, login, and email verification flow.

ResumeWise – AI Resume Assistant *Jan 2025 – Feb 2025*
github.com/dhirajdurgade7758/ai-resume-assistant
AI assistant that reviews uploaded resumes and provides instant feedback.

- Integrated OpenAI GPT API to suggest job roles and improve resume content.
- Supported PDF/DOCX upload, text parsing, and chat-based interaction history.
- Built a responsive, real-time UI using Bootstrap and HTMX.

EDUCATION

B.E. in Computer Engineering, Sinhgad Institute of Technology, Lonavala *2025 – Present*
Current SGPA: 8.41

Diploma in Computer Engineering, SBGI, Miraj *Completed 2024*
Percentage: 84.87%

CERTIFICATIONS & EXPERIENCE

- **Frontend Intern at** DXRAD Pvt Ltd – Built responsive layouts using Bootstrap Studio.
- Finalist in Ideathon 2.0 at PCU Pune – Ranked Top 40 out of 700+ teams.
- Completed the 100 Days of Code challenge – Built 15+ real-world projects with Django, Redis, and Celery.
- Built a blockchain-based publishing platform during Datathon at MIT Alandi.
- Earned Django Certificate – Completed Denis Ivy's Complete Django Course on Udemy.
